3. Any player being granted a release under E.2 or E.5 will be allowed to move to another team without undue delay.

MICRO SOCCER (The Small Sided Game)

NWRGSL Micro Soccer is designed to offer a higher level of participation among youth soccer players within the league. Development of soccer skills are expected to be greater due to the smaller fields and less players on the field during a match. Another contributing factor to develop higher skills of soccer among the youth is the player/coach ratio. Individual attention can now be given to players who need that extra help. It is expected that Micro Soccer will bring back the enthusiasm to all levels of youth soccer and therefore retain a higher number of players who want to continue with soccer well into their teenage years.
